**A FRIENDLY TETE-A-TETE.**

Brien and some other prominent Farmers paid a visit to President Johnson on Sunday last. What transpired at this meeting between the chief men of the Carthage Brotherhood and the Chief Magistrate of the Great Republic is not known. Probably, however, this En-

condoled with them on the execution of their mutual friends, the murderers of the saint Breys; congratulated them on the result of the Clerkenwell "Campaign," and the number of men, women and babies killed and mutilated. Then he would profess say a word of approval with reference to the Fenian "raid" in the streets of Field, when two heroic "patriots" killed the troopers of a little boy with gunpowder and blew the infantine myrmidon of Irish tyranny almost to pieces. The attack upon the martello tower and the robbery of the Cork gunsmith, would also be

of which the chief executive officer of the "best Government in the world" would be likely to approve, nor would he all probability fail to express his admiration for the "strategy" displayed by the "braves" in sending letters containing explosive substances to various "Britons." We question if a more disgraceful sight was ever witnessed than this; the conduct of a nation which in some respects is entitled to be called "great," thus holding interviews with a set of scoundrels who have been concerned in some of the most cowardly and utterly unjustifiable outrages

the world ever saw. How humiliated every respectable American must feel, and how keenly the President, if he has any susceptibility of shame (which is perhaps a doubtful point), must feel the humiliation which is compelled to undergo for the sake of his country. — *Hamilton Spectator*.

pp. But it is as far from being the case throughout the world. We hear of terrible destitution in the Southern States; from India the cry of distress reaches us, owing to the failure of the rice crops; in Old England, while we write nearly a million of people are living solely by public and private charity. People are dying by thousands for want of bread in Tunis. Of Nera, and of the British Consul in Finland appeals for aid for the people of that country. Trees, the bark of trees, and pea straw are being eagerly devoured; the strong and

FROM FASHIONABLE LIFE.—Mrs. Call: Saturday.—Let Lady: Do you intend going to Church to-morrow, dear?—And why? Well, dear, that entirely depends upon my bonnet.—Punch.

A couple went to a minister in Manassah, the other day, and were married. After ceremony was performed, the happy couple handed the minister an envelope, and the couple took up their line of march. After had gone the minister opened the envelope of course expecting to find therein a sum of money. What was his surprise on finding:—“Mr. Preacher, we will call to-morrow to give you a box.” They haven't called.
